The Honorable Jocelyn G. Boyd Chief Clerk/Administrator Public Service Commission of South Carolina 101 Executive Center Drive Columbia, South Carolina 29210

RE: Agreement for Transportation Service with Firm Gas Standby between South Carolina Electric & Gas Company and Schaeffler Group USA,

Dear Ms. Boyd:

Pursuant to 10 S.C. Code Ann. Regs. 103-403, South Carolina Electric & Gas Company ("SCE&G") hereby files and seeks approval of the enclosed Agreement for Transportation Service with Firm Gas Standby ("Contract") between SCE&G and Schaeffler Group USA, Inc.

By copy of this letter, we are providing the South Carolina Office of Regulatory Staff with a copy of the enclosed document for its records.

If you have any questions, please advise.

Very truly yours,

K. Chad Burgess

KCB/ctb Enclosure

# WITNESSETH

WHEREAS, Seller owns and operates a natural gas system in the State of South Carolina which supplies natural gas for certain industrial operations under specific contracts with industrial customers, and

WHEREAS, Seller supplies Firm natural gas to Buyer under the terms of an Agreement For Transportation Service With Firm Gas Standby between INA Bearing Company, Inc. (Plant#1) and Seller dated May 18, 1995, which is hereby being mutually terminated at 10:00 A.M. Eastern Time on April I, 2018, and

WHEREAS, Buyer has requested that Seller transport certain volumes of natural gas belonging to Buyer through Seller's facilities and deliver said volumes of gas to Buyer to displace purchases of Firm gas from Seller's system supply, and

WHEREAS, Buyer has requested that Seller provide Firm natural gas from Seller's system supply when not providing transportation services for Buyer, and

WHEREAS, Buyer has agreed to purchase natural gas from Seller according to the terms and conditions of this Agreement to the extent Buyer has a requirement for fuel in Priority-of-Service Category 3A as set forth in Article III, Paragraph 1, of the General Terms and Conditions to Industrial Service Agreements hereto attached, for Buyer's facility located at Highway 1 South, Cheraw, South Carolina.

NOW THEREFORE, in consideration of the covenants and agreements hereinafter set forth, to be kept and performed by the parties hereto, it is mutually agreed as follows:

# I. SCOPE OF DELIVERY

# FIRM GAS. PRIORITY-OF-SERVICE CATEGORY 3A

Seller acknowledges that Buyer may utilize a source of gas other than system supply gas from Seller's sources. Buyer's gas may be transported to Buyer by Seller under the Transportation services provision of this Agreement. Natural gas is provided hereunder to satisfy Buyer's requirements when Seller is not providing transportation services.

Buyer agrees to purchase from Seller, and Seller agrees to sell to Buyer, up to the Maximum Daily Quantity of natural gas which shall not be subject to interruption or curtailment except for conditions as set forth in Article IV, Paragraph 3, of the General Terms and Conditions hereto attached. The Maximum Daily Quantity of Firm Gas shall be 70 dekatherms per day. Any gas taken by Buyer above the Maximum Daily Quantity, after notice from Seller of curtailment to the Maximum Daily Quantity, without Seller's advance approval, shall be Unauthorized Overrun Gas and shall subject Buyer to the penalty rate per dekatherm set forth in Article IV, Paragraph 5, off the General Terms and Conditions to Industrial Service Agreements hereto attached. Deliveries of Firm Gas under this paragraph of the Agreement shall be utilized by Buyer only in Priority-of-Service Category 3A as set forth in Article III, Paragraph 1, of the General Terms and Conditions hereto attached. Buyer shall purchase all gas tendered by Seller up to the Maximum Daily Quantity whenever and to the extent Buyer has a requirement for fuel in the Priority-of-Service Category set forth herein.

# 2. HOURLY DELIVERIES

Seller shall not be obligated to make hourly deliveries of gas pursuant to Paragraph 1 above at an hourly rate exceeding 8 dekatherms per hour. Seller reserves the right to regulate the flow of gas delivered hereunder by means of automatic or manually operated flow control valves so as to limit the hourly flow of gas within the specified quantity.

# 3. POINT OF DELIVERY

The Point of Delivery for all gas delivered hereunder shall be at the outlet side of Seller's measuring and regulating equipment. The measuring equipment shall be installed on the Buyer's property at a location mutually agreed upon by Seller and Buyer. All gas shall be delivered at this location and it shall be the Buyer's responsibility to extend all fuel lines from this location to the point or points of usage.

# 4. **DELIVERY PRESSURE**

Seller agrees to use due care and diligence to furnish gas hereunder at such uniform pressure as Seller may elect up to, but not exceeding 20 pounds per square inch gauge, and not less than 2 pounds per square inch gauge, at the "Point of Delivery". Buyer shall be responsible for the installation and operation of adequate safety equipment downstream of the Point of Delivery so as to relieve or control pressure variations within the limits described above that may, for any reason through malfunction of Seller's equipment or otherwise, occur on Buyer's side of the "Delivery Point".

# 5. TRANSPORTATION SERVICE

# (a) SCOPE OF SERVICE

Seller agrees to accept deliveries of natural gas belonging to Buyer at Seller's delivery point from the upstream pipeline and to transport Buyer's gas and redeliver to Buyer. Service provided hereunder is in lieu of natural gas provided from system supply. Buyer agrees that the transportation service is provided on an interruptible basis. Interruptions shall be at the sole discretion of Seller or whenever service is interrupted by any upstream pipeline.

# (b) NOMINATION PROCEDURES

Seller agrees to accept and transport up to 70 dekatherms, excluding shrinkage volumes, of natural gas on a daily basis. Buyer will notify Seller at least five (5) days prior to the end of the month the volumes of gas, in dekatherms, to be transported on a daily basis during the next calendar month. Buyer has the right to change the volume to be transported during the month on a daily basis. It is Buyer's responsibility to notify producers and connecting pipelines regarding any change in transportation volumes. Seller will accept changes in daily volumes dispatched from an upstream pipeline; however, Seller reserves the right to limit or restrict the volumes accepted and transported at any time whenever, in Seller's sole opinion, operating conditions warrant a limitation or restriction on the acceptance of delivery of transportation gas. Limitations or restrictions may be because of, but not limited to, the utilization of deliverability capacity of Seller for Seller's system supply requirements.

# (c) SHRINKAGE

Volumes retained by Seller for shrinkage will be as specified in Rate 35, attached as Exhibit A.

# (d) BALANCING

Balancing will be in accordance With the provisions specified in Rate 35, attached as Exhibit A.

# (e) POSSESSION OF GAS

After Buyer delivers gas or causes gas to be delivered to Seller at the point(s) of receipt hereunder, Seller shall be deemed to be in control and possession of the gas until it is redelivered to Buyer at the point of delivery. Buyer shall have no responsibility with respect to any gas deliverable by Seller or on account of anything which may be done, happen or arise, with respect to such gas until Seller delivers such gas to Buyer or for the account of Buyer. Seller shall have

no responsibility with respect to such gas before Buyer delivers such gas to Seller or after Seller medelivers such gas to Buyer or on account of anything which may be done, happen or arise with respect to such gas before such delivery or after such redelivery.

# (f) WARRANTY OF TITLE TO GAS

The Buyer warrants for itself, its successors and assigns, that it will at the time of delivery to Seller for transportation have good and merchantable title to all gas so delivered free and clear of all liens, encumbrances and claims whatsoever. Buyer will indemnify Seller and save it harmless from all suits, actions, debts, accounts, damages, costs, losses and expenses arising from or out of adverse claims of any or all persons to said gas, including claims for any royalties, taxes, license fees or charges applicable to such gas or to the delivery thereof to Seller for transportation.

# (g) PRIORITY AND ALLOCATION OF TRANSPORTATION SERVICE

It is acknowledged by Buyer that other end-users of natural gas may from time to time contract with Seller for the transportation of natural gas owned by them. In the event that available capacity or operating conditions exist which limit the acceptance by Seller of natural gas to an amount that is less than the aggregate volume of all such natural gas tendered for transportation and redelivery by any or all end-users that have contracted with Seller for transportation service, the following priorities and allocations shall apply:

- (I) All natural gas purchased by Seller for its system supply or otherwise owned by Seller shall have the highest priority of acceptance into Seller's system and the highest priority of delivery throughout Seller's system.
- (2)The priority of acceptance of natural gas owned by end-users, whoever they may be from time to time, and tendered to Seller's system for redelivery thereof shall be based upon the category of service, pursuant to the General Terms and Conditions to Industrial Service Agreements attached hereto, for which Seller has agreed to provide standby service associated with a Transportation Agreement with any such end-user. Higher priorities of standby service pursuant to individual agreements between Seller and end-users shall determine the priority of accountability and redeliverability of hatteral gas tendered to Seller for transportation in accordance with the priority categories in the Curtailment Plan. If any Transportation Agreement between Seller and an end-user does mot contain a provision for standby service and a specified category of service with respect to said standby service provision, then the acceptability and redeliverability of any natural gas tendered by such end-user to Seller shall have the lowest priority of acceptability and redeliverability.

- (3) In the event that the total volume of natural gas tendered to Seller for acceptance and redelivery relative to a single category of standby service is greater than the capacity determined by Seller to be available for acceptance and redelivery of natural gas in said category of standby service, then acceptance and redelivery of such tendered gas shall be allocated pro rata based upon the contract volumes in all agreements for transportation service containing said category of standby service on the Seller's system.
- (4) The determination of the existence of limitations on capacity or operating conditions which limit the acceptability or deliverability of natural gas tendered to Seller for transportation shall be at the sole discretion and judgment of Seller.

# (h) SPECIAL PROVISIONS

- (1) The Buyer bears sole responsibility for costs incurred to deliver transportation gas to Seller.
- (2) Buyer shall be required to reimburse Seller for any out-of-pocket expenses incurred in connection with the initiation and rendering of service under this Transportation Agreement.
- (3) Seller retains sole discretion as to whether or not a particular Buyer or particular Buyers shall receive service pursuant to Transportation Agreements.
- (4) It is contemplated that service pursuant to this Transportation Agreement shall be provided within the existing limitations of Seller's system, and Seller shall not be required to expand or alter the said system.
- (5) Transportation service may be curtailed or discontinued at the sole option of Seller after not less than two (2) hours advance notice by telephone or otherwise. However, the Buyer shall continue to hold title to any gas (less shrinkage) received by Seller and not delivered prior to such curtailment or discontinuance. Seller will notify Buyer when conditions permit Seller to resume transportation service.

# 6. INITIAL SERVICE

Buyer agrees to begin purchasing natural gas under the terms and conditions of this Agreement at 10:00 A.M. Eastern Time on April 1, 2018, at which time the Agreement For Transportation With Firm Gas Standby dated May 18, 1995, between INA Bearing Company, Inc. (Plant #1) shall terminate.

# 7. TERM OF AGREEMENT

This Agreement shall become effective on April 1, 2018, and shall continue in full force and effect through March 31, 2019, and from month to month thereafter unless either party shall give written notice of intention to terminate at least thirty (30) days prior to the expiration of the original term or any one month extension thereoff.

# 8. RATE

Each month, the daily volumes of gas delivered by Seller to Buyer in Priority-of-Service Category 3A shall be billed on Rate 35 attached as Exhibit A, as presently exists or as amended or superseded by the Public Service Commission of South Carolina.

Gas volumes will be corrected for BTU content, pressure, temperature, supercompressibility, specific gravity, and other factors where applicable.

Seller's "Purchased Gas Adjustment" applicable to Rate 35 shall be determined according to the method shown in Exhibit B, attached hereto, as may be amended, revised, or superseded by the Public Service Commission off South Carolina and shall apply to all service supplied under Rate 35.

# 9. BILLING VOLUMES

For the purpose of billing, the parties agree that the first gas delivered through the Point of Delivery shall be the volumes transported for Buyer on a daily basis pursuant to the transportation service specified in Paragraph 5 herein, All volumes in excess of the transported volumes will be considered as having been delivered from Seller's system supply pursuant to the standby provisions of this Agreement.

# 10. CREDITWORTHINESS

Seller, in order to satisfy itself of the ability of the Buyer to meet its obligations under the contract, may conduct periodic reasonable credit reviews in accordance with standard commercial practices. Buyer agrees to assist in these reviews by providing financial information and at the request of the Seller, will maintain such credit support or surety including, but not limited to, all unconditional and irrevocable letter of credit to provide adequate security for protection against the risk of nonpayment.

# 13. ASSIGNMENT

Customer shall not assign this Agreement or its rights hereunder without the prior written consent of the Company, which consent may be withheld in the exercise of its sole discretion.

# **EXHIBITB**

# SOUTH CAROLINA ELECTRIC AND GAS COMPANY PURCHASED GAS ADJUSTMENT FIRM GAS ONLY

This adjustment is applicable to and is part of the Company's firm gas rate schedules. The cost will be calculated to the nearest one-thousandths of a cent, as determined by the fellowing formula, and will be included in the base rates to the extent approved by the Public Service Commission. All costs and factors will be recalculated monthly for a forward looking 12-month period. Adjustments in gas cost factors will be made for all factors in any month in Which the recalculation indicates that any factor requires an adjustment of more than \$0.04 per therm. If the recalculation indicates the adjustment is less than or equal to \$0.04 per therm, then the Company may nevertheless adjust the rate if, in its sole discretion, it determines that a rate adjustment would reasonably impact customers' bills. The recalculation shall be made based on information current as of a mid-month date selected by the Company which allows for revised factors to be filed and acted on by the Commission before the first billing cycle of the month in which they are to be effective. All components of the recalculation (commodity costs, demand charges, firm sales, industrial revenue credits, capacity release credits, over or under collections, carrying costs, etc.) shall reflect current forecasts and balances as of the date of the recalculation. Differences between firm cost of gas revenues actually billed and firm cost of gas expenses actually incurred for each month, as defined below, will be calculated monthly, for both Demand Charges and Firm Commodity Benchmark charges, and accumulated. The accumulated amounts will be applied to subsequent cost of gas factor calculations as detailed herein with monthly carrying costs calculated at the rate of one-twelfth of the annual applicable interest rate. This annual rate is defined as the rate of interest as of the first day of each month for 1Daycar U.S. Government Treasury Bills plus an all-in spread of 65 basis points (0.65 percentage points) with this total carrying costs annual rate not exceed 6%. The rate will be applied to the cumulative balance of over or under recovery as of the close of the prior month for each customer class for both demand and commodity with no carrying cost applied to over or under-collection balances equal to or exceeding \$20 million dollars. The resulting interest adjustment will be applied to the demand and commodity cost of gas recovery balances for each customer class. The Demand Charges and Firm Commodity Berichmark charges shall be calculated as setforth below.

# A. Demand Charges:

Demand Charges per Therm by Class = [a-{b+c}] x Rate Class Percentages
Firm Sales Therms by Rate Class

- (a) Capacity charges and reservation fees for transportation, storage and LNG.
- (b) Released capacity at 75% of the net compensation received from secondary market transactions. (See "Note-11" below)
- (e) Margin Revenue from interruptible rates above \$.02081 per therm. Margin Revenue is the total amountmeceived for such sale less the commodity cost of gas determined in B below.

# **EXHIBIT B**

All calculations of Demand Charges by customer class shall be done monthly. The full amount of any Margin Revenue as stated in C above, shall be credited to the Demand Cost, Additionally, SCE&G will revise the rate class percentages to reflect the current weighting of 50% of annual peak day forecast and 50% of forecast annual sales in each annual Purchased Gas Adjustment filing.

NOTE-1: "Released Capacity" shall include all transactions which involve the use of gas transportation capacity rights, storage rights or similar off-system rights or assets owned by SCE&G, but only if the cost of those rights or assets is borne by firm gas customers in South Carolina. "Net value received" shall mean the gross compensation received from the "released capacity" transactions, less all transportation charges, taxes or other governmental charges. brokerage fees or commissions, or other costs or charges related to the transaction, including all costs incurred in purchasing natural gas supplies that form part of the transaction.

#### B. Firm Commodity Benchmark:

Whete: Firm Gas Cost per Therm = 100:45

- (g) Total variable cost of natural gas (processed or unprocessed), vaporized liquid natural gas, synthetic gas, propane-air mixture, landfill gas, or other source of methane gas or any mixture of these gases entering the Company's system in dollars including any additions or subtractions from Price Risk Adjustment.
- (d) The cost of gas attributable to all sales made by the Company to customers under an interruptible rate or contract or any Special Market Priced Customers, such costs to be ealculated by dividing the total price paid for commodity gas for the month by the volumes of gas purchased for the month (adjusted for shrinkage) with the resulting unit price then multiplied by interruptible sales therms for the month. (See "Note-2" Below)
- (g) Total firm therm sales of gas. Total sales being defined as those sales excluding gas sold under D above recorded on the Company's books in Accounts 480 through 483 per The Uniform System of Accounts for Class A and B Gas Utilities of the National Association of Regulatory Utility Commissioners (NARUC).

NOTE-2: Special Market Priced Gas includes, without limitation, market priced gas sold to Compressed Natural Gas (CNG) customers under SCE&G's Developmental Rate for CNG and emergency gas customers sold under provisions providing for Emergency Gas sales. The appropriate revenue related tax factor is to be included in the calculation of Demand Charges and the Firm Commodity Benchmark.

# C. Alternative Commodity Benchmark Calculation Related to Interruptible Sales

Interruptible sales are priced to reflect the costof gas supplies available at the time the sales are transacted. The Firm Commodity Benchmark is calculated as a system-wide average at month's end. In some cases, the market price of gas supplies may change within a month such that the Firm Commodity Benchmark plus \$.02081 per therm is higher than the price quoted for interruptible sales. In such cases, SCE&G may calculate an Alternative Commodity Benchmark for those interruptible sales whose prices fall below the Firm Commodity Benchmark, SCE&G shall then use that Alternative Commodity Benchmark plus \$.02081 per therm in calculating the Margin Revenue from those sales.

# **EXHIBIT B**

The Alternative Commodity Benchmark -The Alternative Commodity Benchmark shall be calculated using the following formula:

- (p) Total variable costof gas (of whatever type) entering the Company's system that was purchased, nominated, injected or otherwise obtained to support the interruptible sales whose prices are lower than the Firm Commodity Benchmark.
- (d) The interruptible sales, in therms, whose prices are lower than the Firm Commodity Benchmark.

The costs and quantities of gas used in such calculation shall be excluded from the calculation of the Firm Commodity Benchmark under Section B, above.

Margin Revenue from Interruptible Sales: In those months in which SCE&G elects to compute an Alternative Commodity Benchmark for interruptible sales, it shall use that Alternative Commodity Benchmark to compute Margin Revenue from Interruptible sales and shall include the Margin Revenue so calculated in factor (c) of the Demand Cost calculation under Section A. above.

Whenever SCE&G elects to compute an Alternative Commodity Benchmark for interruptible sales, it shall provide written notice thereof to the Commission and the Office of Regulatory Staff, within 30 days of adopting the resulting adjustment to prices and Volumes.

GAS

#### RATE 35

# TRANSPORTIATION AND STANDBY SERVICE (Flage 1 of 2)

## **AVAILABILITY**

Transportations service is available to any customer who has firm requirements of 50 Dekatherms Maximum dâily Quantity (MDQ) or greater-and, who owns and delivers gas to the Company at an acceptable point of connection, for delivery by the Company to the customer's regular point of service.

Service will be supplied at the best efforts of the Company and may be restricted from time to time due to operating limitations on the Company's system or from third party restrictions. In the event of such limitations, the transportation service is subordinate to service under all other rate schedules and may be curtailed or interrupted, normally upon not less than two hours astwance notice, or, when necessitated by conditions affecting the Company's gas system, upon less than two hours advance notice.

#### RATE PER MONTH

#### **Transportation Service**

Monthly Demand Charge:

| First            | S0 Dekatherms @  | \$605: <b>50</b> _                   |
|------------------|------------------|--------------------------------------|
| Excess overer    | 50 Dekathierms @ | \$8,256 per Dekatherm                |
| Commodity Charge | ·@               | \$1.619369 Depetelsivered Dekathertn |

#### **DETERMINATION OF BILLING DEMAND**

- (a) Billing Months of November-April:
  - The monthly bitting demand shall be the greatest of: (1) The actival MDQ; (2) The contract MDQ; or (3) 50 Delkatherms.
- (b) Billing Months of May-October;

The monthly billing demand shall be the greatest of: (1) The actual MDQ; (2) 80% of the contract MDQ; or (3) 50% of the highest MDQ occurring during any of the preceding billing months of November-April; or (4) 50 Dekatherms.

#### Standby Service.

In addition to the damand charges for transportation service the following charges will apply for gas supplied by the Company,

(a) Billing Months of November-April:

The mointbilly bifting demand shall be the greatest of; (1) The actual MOQ; (2) The contract MDQ; or (3) 50 Delatherms.

| Demand Charge @    |       |       |       | \$6600 <u>0</u> per Oekatherm |
|--------------------|-------|-------|-------|-------------------------------|
| Commedity Charge @ | .@"'~ | \$.:, | 7.:6. | . 7 \$ 77.5757e pro Rekalegan |

(b) Billing Months of May-October:

| Demand Charge @     | None                  |
|---------------------|-----------------------|
| Commodity Charge @" | \$7.5757 beroekstherm |

#### MINIMUM CHARGE

The monthly minimum charge, shall be the demand charges as determined above.

## ADJUSTMENT FOR RECOVERY OF GAS COSTS

The commodity charges above include gas costs of \$5.9686 perdistratherm. These charges are subject to adjustment by order of the Public Service Commission of South Carolina.

# **DELIVERED GAS QUANTITY**

When separate metering is not teasible, the Company shall assume for billing purposes, unless otherwise agreed to, that such metered volumes reflect deliveries under this rate schedule prior to gas received under any other rate schedule.

The quantity of transportation gas received into the Company's system for the customer's account to be delivered to the customer by the Company shall be reduced by 3% in measurement for line loss and unaccounted for gas,

# SOUTH CAROLINA ELECTRIC & GAS COMPANY

GAS

#### RATE 35

# TRANSPORTATION AND STANDBY SERVICE (Page 2 of 2)

#### **DELIVERED GAS QUANTITY**

The volume of gas received on a daily basis for customer's account may not equal the volume, less shrinkage, delivered to the customer. The result will be deemed an imbalance. Customer's account will be reviewed at the end of each month, or on termination of Transportation Service or curtailment or discontinuance thereof. If the imbalance is such that the customer has received more gas than was delivered to the Company during the period under review, customer shall be billed for such as standby service. If the imbalance is such that the customer has received less gas than was delivered to the Company may exercise one of two options, if its sole discretion. The Company may: (1) deliver the excess gas to the customer, over the next calendar month succeeding the review, at such times as the Company shall determine in its sole discretion; or (2) buy excess gas at Company's lowest delivered purchase price in that month from any of Company's stippliers.

#### LIABILITY

The Company shall not be liable for curtailment of service under this rate schedule or loss of gas of the customer as a result of any steps talken to comply with any law, regulation, or order of any governmental agency with jurisdiction to regulate, allocate or control gas supplies or the rendition of service hereunder, and regardless of any defect in such law, regulation, or order.

Gas shall be and remain the property of the customer while being transported and delivered by the Company. The customer shall be responsible for maintaining all insurance it deems necessary to protect its property interest in such gas before, during, and after receipt by the Company,

The Company shall not be liable for any toss to the customer arising from or out of service under this rate schedule, including loss of gas in the possession of the Company or any other cause, exceptions or willful negligence of the Company's own employees or agents. The Company reservices the right to commingle gas of the customer with other supplies.

#### SALES AND FRANCHISE TAX

To the above will be added any applicable sales tax, franchise fee or business license tax which may be assessed by any state or local governmental body.

#### **PAYMENT TERMS**

All bills are net and payable when rendered.

# **TERM OF CONTRACT**

The customer shall execute an Agreement of Service with the Company which shall specify the maximum daily volume of gas to be transported, the period of time that the Company will receive such gas, and all conditions under which delivery to the customer will be made. The customer must provide the Company with all necessary documentation of ownership and authorization required by any regulatory body with jurisdiction.

# **GENERAL TERMS AND CONDITIONS**

The Company's General Terms and Conditions are incorporated by reference and a part of this rate schedule.

# ANNUAL NOMINATION

Cutationners must electito receive a) Transportation Service only, b) Transportation Service with Standby Service, or c) Standby Service only for each applicable period. Such elections must be made to the Company Im writing by October 15th of each year to be effective for each applicable period. Such elections must be made to the Company Im writing by October 15th of each year to be effective for each applicable period. Such elections must be made to the Company Im writing by October 15th of each year to be effective for each applicable period. New customers under this tariff shall elect volumes at the time their service contract becomes effective. If no prior election has been made then the customer Will receive Standby Service only. If any customer will carry over for the following period. All elections shall be binding for the duration of the November 1stl to October 31st particled and may notitise inworked, suspended or motilitied by the Customer.

# **SOUTH CAROLINA ELECTRIC& GAS COMPANY**

# GENERAL TERMS AND CONDITIONS TO INDUSTRIAL SERVICE AGREEMENTS FOR GAS

# Article I GENERAL

These Terms and Conditions to Industrial Service Agreements are supplicatentary to the Rules and Regulations Issued by the Public Service Commission of South Carolina and the General Terms and Conditions of South Carolina Electric & Gas Company as provided by the Public Service Commission of South Carolina.

The provision of these Terms and Conditions apply to all persons, partnerships, corporations or others designated as industrial users who are lawfully receiving gasselvice from South Carelina Electric & Gas Company under rate schedules or service agreements filed with the Commission. To the extent tilese Terms and Conditions conflict with the General Terms and Conditions for natural gas service, the General Terms and Conditions for natural Gas service control.

South Carolina Electric & Gas Company is referred to herein as "Seller", and the user or prospective user is referred to as "Buyer". The Public Service Commission of South Carolina is referred to herein as "Commission".

# Article II **DEFINITIONS**

Except where the context of the context of the construction of the context of the construction of the cons

- "Day" shall mean a period of twenty-four (24) prinsecutive hows beginning at 10:00 A.M. Eastern Time or at such other hours as may be designated.
- "Month" shall mean the period between any two (2) regular readings of Selber's meters ministrishall be not less than twenty-eight (28) days or more than thinty-four (34) days. 2. 3.
- "Year" shall mean a period of 366 days commencing with the day officet delivery of gas hereunder, and each 365 days the realist except that in a jear havilly a date offetbruary 250th, such year shall consist of 366 days.
- Toubic feet of gas shall mean the amount of gas necessary to fill a cubic foot of space when the gas is at a temperature of sixty degrees fahrenheit (60°F) and under an absolute pressure of fourteen and seventy-three hundred tits pounds per square inch (14.73 psja).

  \*\*CCF\*\*shall mean one hundred (100) public feet of gas. 4.
- \*MCF" shall mean one thousand (1000) cubic feet of gas,
- 6.7 "BTU" shall mean a British Thermal Unit and Je the amount of heat required to raise the temperature of one (1) pound of water 1° Fahrenheit at 60° Fahrenheit
- "IMMBTU" shall mean one million British Thermal Units.
- Therm's shall mean the quantity of heat energy which is 100,000 British Thermal Units.
- \*Dekatherms (dt) shall mean the quantity of heat energy which is 1,000,000 Bnash Thennal Units,
- "Natural Gas" er Gas shall mean natural gas, processed or unprocessed, vaporized liquid natural gas, synthetic gas, propane-air mixture, landfill gas, other unconventional source of methane gas or any mixture of these gases
- "Firm Service shall mean savice from rate schedules and/or contracts under which Seller is expressly obligated to deliver specific volunties within a given time period and which 12. anticipales no interruptions but which may permit unexpected interruptions in case the supply to higher priority existences is threatened:
- "Interruptible Service" shall mean service from rate schedules and contracts under which Company is not expressly obligated to deliver specific volumes within a given time period, and Which antiopales and permits interruption on short notice, or service underrate schedules or contracts which expressly or impredictly quite installation of alternate fuel capability.
- "Commercial Service" shall mean service to Customers engaged primarily in the sale-of goods or services including institutions and libral, state and federal government agencies for 14: tises Other than those involving manufacturing or electric power generation,
- Industrial Services shall mean service to customers engaged pilmently lit a process which creates or changes raw or unfinished materials into another form or product including the generation of electric power.
- 16 Plant Protestion Gas" shall mean the molimum volumes required to prevent physical harm to the plant facilities or danger to plant personnel when such protection cannot be afforded through the use of an alternate fuel. This includes the protection of such material in process as would otherwise be destroyed, but shall not include deliveries required to maintain plant production. A determination will be made by the Seller of minimum volumes required. Such essential volumes Will be displitted accordingly. Wheelstock Gas" shall these matural gas used as a raw material for its cleaning in creating an end product.
- "Process Gas" shall mean gas used for which alternate fuels, other than another gaseous fuel, are not technically leasible such as in applications requiring precise temperature controls and precise flame characteristics.
- "Boller Fuel" shall mean natural gas used as fuel for the generation of steam and in bitamal collibustion turbine engines for the generations of electricity.
- "Allemate Fuel Capability" shall mean a situation where an allemate fuel could have been utilized whether or not the facilities for such use have actually been installed; provided howneys. Where the use of natural gas is for Plant projection, feedstock or process uses and the only alternate fuel is propane or other gaseous fuel, then the Buyerwill be treated as it he had no alternate fuel capability it such tuel is Lincolatinable for \$Ething fuel needs.
- 21. "Gas Supply Deficiency" shall mean any occurrence relating to Seller's gas supply which causes Seller-to deliver less than the total requirements of its system, including failures of SUPPLIES to deliver has fer any reason, requirement of gas for system storage, conservation of gas for future delivery, or any other occurrence not enumerated herein which affects Seller's gas supply.
- "Storage Injection Requirements" shall mean all volumes required by the Seller for Injection into underground storage, including cushion gas, and for liquefaction, including (1)81 used for injection in liquetaction plants, or for such officer storage projects that may be developed expressly for the protection of supply to high priority users.
- "Seller Uset shall mean fuel used for gas compression, LPG plants and LNG plants, other gas needed by Seller's facilities to furnish the requirements of Buyers, together with unaccounted for gas, This gas shall be considered included in Priority of Service Category 1. Otherwital uses of Seller, such as flame-stabilization requirements, will be met as long as such uses da not jeopardize sawice to its film service Buyers.
- "Essential Human Needs" shall mean natural gas service, which, if denied, would clause shutdown of an Operation resulting in the closing of an establishment essential to maintaining the health and safely of the general public.
- The Point of Delivery shall be at the outstable of the Seller's measuring equipment and regulating equipment.
- "Emergency Service" shall mean supplemental deliveries of natural gas that may be required to forestall irreparable injury to life or property including environmental emergencies.

# Article III **CURTAILMENT OF SERVICE**

- In the event of a Gas Supply Deliciency on the Seller's system, the Seller's system, the Seller's system, the Seller's system accordance with this system.
  - The Seller shall order curtailment of sales made to Buyen's purchasing gatrunder the Seller's rate schedules or Special contracts in descending order in accordance with priority of service categories set forth below. Approved emergency gas is excepted from cuttailment
    - 1. Residential and small commercial Buyers (less than 50 MCF on a peak day) and essential human needs customers where there is no installed or available alternate fuel capability,
    - 2. Large commercial direct flame requirements (50 MCF or more on a peak day); firm industrial requirements for plant protection, fee-distock and process needs; and storage injection requirements.
    - 3A. Firm industrial requirements for uses other than boiler fuel which do not qualify for Category 2.
    - 3B: Firm commercial and industrial boilerfuel requirements up to 1,000 MCF on a peak day,
    - 3C. Interruptible requirements for human need types offacilities such as public buildings, hospitals and laundries.
    - 30. Unterruptible requirements for direct flame applications which can utilize only another gaseous fuel asen alternate.

- 3E. Interruptible requirements fondifiect flame applications which can utilize a fuel other than a gaseous fuel as an alternate.
- 3F. Interruptible febutinements for boildirfluet use of less than 300 MCF on a peak day,
- (LEFT BLANKINTENTIONALLY)
- (LEFT BLANK INTENTIONALLY)
- Interruptible Boiler Fuel requirements of 300 MCF or more, but less than 1,500 MCF on a peak day, where alteriate fuel capabilities can meatsuch requirements
- Interruptible Bother River requirements of 1,500 MCF or more, but less than 3,000 MCF on a peak day, whereatternate fuel capabilities can investigation requirements.
- Interruptible Boiler Fuel requirements of 3,000 MCF or more, butless than 10,000 MCF on a peak day, where alternate fuel capabilities can meet such requirements.
- 9. Interruptible Boller Fuel requirements of 10.000 MCF or more on alpeak day, where alternate fuel capabilities can meet such requirements.

  10. Natural gas requirements of customers, who have an alternate fuel as their primary energy source, but use natural gas as a standby fuel.
- Curtailment will be in descending order beginning with Category 10 (i.e. Category 1 is the highest priority).
- A determinition of the category in which a Buyer is placed will be made each year based upon usage in the Preceding twelve months ending August 31 and/or current contract as of the same date. The placement of a Buyer in a category in accordance with the determination made herein will be effective November 1 of the current year, extending through Deleter 31 Of the following year. A moving base period will be used each year with such base period to include the preceding twelve months ending August 31 of the current Redessifications in categories will be effective on November 1 of the current year. Where a reclassification is necessary, the effected Buyer will be notified of such reclassification prior to November of the current year.
- Where daily volumes are not evaluable to make the determination of the 50 MCF/day required in the Curtailment Plan, then requirements shall be determined by taking those Buyers having actual usage of 1000 MCF or more per month for any month during the previous twelve (12) month period ending August 31. Such month's use will be divided by the number of days during that specific billing cycle. By means of the average daily volume thus obtained, the Buyerwill be placed in the appropriate category. Where daily volumes for the peak month in the base period are available to make the required determination, then such volumes will be used.
- Any new Diwaradded during any base period will be placed in the appropriate calegory by the Selter In accordance with the best information available.

# Article IV **SCOPE OF AGREEMENT**

- Seller's natural gas operations are regulated by the Commissions and are subject to "Rules and Regulations Governing Selving Selving by Gas Systems in South Carolina" as ameliged from time to time. Deliveries of gas hereunder are subject to total or partial curtailment or interruption by Seller pursuant to operating Procedures as are now, or may bereafter be, prescribed by the Commission. Buyer hereby expressly acknowledges that Selfer shall not be liable in damages for, or on account of, any curtailment or interruption of deliveries where such curtailment or interruption is the result of, or pursuant to, operating procedures by the Committed curtailment or interruption of service.
- Buyer shall consult with and furnish to the Seller such information as the Seller thay require to determine the availability of service at a perficular location before proceeding with plans for any new or additional gas loads. No new or additional gas loads will be served if it is determined that such service will jeopardize service to existing customers by increasing the total system's firm load requirements above available supplies
- Deliveries of "Firm Gas" up-to the Maximum Daily Quantity set forth in the Service Agreement, shall be firm-and shall not be subject to curtailment or interruption by Seller except that saused by Ferre Majure, Or operating conditions beyond Seller's control, or when such curtailment or interruption is the result of Or pursuant to, operating procedures prescribed by the Commission. Deliveries hereaccershall have priority over all deliveries made by Seller on an interruptible basis.
- Deliveries of "Interruptible Gas" shall be subject to curtailment or interruption by Seller at any time and from time to time When, in Seller's sole judgment, it does not have gas available. and Buyer hereby expressly acknowledges that Seller shall not be liable in damages for, or on account of any curtailment or interruption of deliveres. Seller agrees to give Buyer hold Buyer have (2) hours notice of curtailment or interruption in cocasioned by an event of Force Majeure effecting the Seller's system, Seller shall be obligated to give only such notice as is practicable in the circumstances. Seller agrees to communicate aultaliment notices to one of the person designated from time to time by Buyer as authorized to receive such notices. If Buyer has not made such designated from time to time by Buyer as authorized to receive such notices. If Buyer has not made such designated from time to time by Buyer as authorized to receive such notices. If Buyer has not made such designated from time to time by Buyer as authorized to receive such notices. promptly communicate with the persons so designated, then said notice shall be sufficient if given by Seller to any person who is on Buyer's premises or who answers Buyer's telephone.

  Whenever, and to the extent that the Seller is unable to deliver the gas requirements of the Buyer, the Buyer shall have the right to purchase gas or other fuel sufficient to make up such deficiency/from such othersource or sources as may at the time be available to Buyer,
- Gas taken by a Buyer of "Fam Gas" on any day, without Seller's advance approval, which exceeds Buyer's Maximum Daily Quantity shall be considered to be Unautitionized Overnam Gas. Selfershall bill, and Buyershall pay, forsuch Unauthorized Overrun Gas at the following rates, in addition to all other charges payable to Selfer hereunder

  - (A) For the first three percent (3%) of the Maximum Daily Quantity, the Unauthorized Overrun Gas shall be paid for at 1.25 times the Base Rate set forth in the Service Agreement, and (b) Ferfihe next two percent (2%) of the Maximum Daily Quantity; the Unauthorized Overrun Gas shall be paid for at 3.0 times the Base Rate set forth in the Service Agreement, and
  - For additionally olumes the Unauthorized Overrun Gas shall be paid for at 5.0 times the Base Rate set for in the Service Agreement
- The payment of an Overrun Penalty shall not, under any circumstances, be considered as giving Buyer the right to take Unauthorized Overrun Gas, nor shall such payment be considered to exclude onlimit any other concentration and the following another Buyer against the offending Buyer for failure to comply with its obligations to stay within its Maximum Daily Quantity.

  Any gas taken by an interruptible Buyer after the effective hour of an order calling for curtailment of all interruptible gas hereunder shall be billed pursuant to Article VII(B)(f) of the
- Company's then approved General Terms and Conditions for natural gas service.
- The Public Service Commission of South Carolina has prescribed the following operating procedures in regard to the curtain then of Interruptible service by Setter: During the period when operating conditions require curtaliments in any type of interruptible service, Seller shall curtail deliveries of gas without discrimination within end-use priority of service sellegeries established by the Public Service Commission of South Carolina and pursuant of curtailment instructions received from its supplier or suppliers made in accordance with General Terms and Conditions to the Service Agreement between Seller and it supplier or suppliers and any subsequent modification or amendment thereof.
- Buyeragrees that all gas delivered the minuter shall be used by the Buyer and that no portion the resold.

# Article V QUALITY

- The gas delivered hereunder shall be natural gas or any mixture of natural and manufactured gas, including but not limited to, sydimetic-gas or liquified petroleum gas as provided for in Paragraph 3 hereof; provided, however, that moisture, impurities, helium, matural gasoline, buttere, propone and other hydrocatatoms except methane may be removed prior to delivery to Buyer, Seller may subject on permit the subjection of the gas to compression, heating, cooling, cleaning, or other processes, Which are not substantially detrimental to the merchantability of the gas.
- The gas delivered hereunder shall have a total heating value of not less than 950, por more than 1,400 BJLI's per cubic foot of diff gas, and be reasonably free of moisture, obligationable liquids and solids so as to be utilized immediately upon delivery to Buyer, and shall contain not more than 200 grains of total subthur, nor more than 15 grains of hydrogen subhitite per
- Seller may parmit its suppliers or it may itself supply gas from any stand-by equivalent to the natural gas supplied heretinder, and adeptable for use by Buyerwilhout the necessity of making other than minor adjustments to fuel burning equipment
- If the natural gas offered for delivery by Sellansball fall at any time to conform to amy of the specifications sel-forth in the Article V, Quality, then Buyer agrees to notify Seller thereof and Buyer, thereupon, may at its option refuse to accept delivery pending correction by Seller. Upon Seller's failure to properly remedy any deficiency in quality as specified herein, then Buyer may accept delivery of such natural gas and make changes necessary to bring such gas into conformity with such specifications and Buyer shall then deduct from future payments any reasonable expenises incurred by it in effecting such change as agreed to by both parties.
- Odorization of gas delivered hereunder is not required of Seller. However, nothing in these Terms and Conditions startly preduce Statler from adorizing such gas if Seller Societies or if Seller is required by federal or state regulatory agencies to periform sugti adolization.

# Article VI MEASUREWENTS

- 1. The violumes and total healing value of the gas delivered before ideal and desirable determines the follows:
  - (a) The Unit of Wolume shall be a cubic foot of gas,
  - (b) When orifice meters are used wolumes delivered shall be computed in accordance with the specifications, formulae and tables published April 1955, as Gas Measurement Committee Report No. 3 of the American Gas Association, and anyimodifications and amendments thereto, and shall include the use of flange connections.
  - (c) All Volumes delinered shall be corrected to the pressure shall be assumed to be founded and seven tenths (14.7) pounds to the square inch, inespective of actual elevation or location of the point of delivery above sea level or variations in such atmospheric pressure from time to time.
  - (d) The temperature of the gas shall be assumed to be 60 degrees Fahrenheit (60°) unless Seller elects to install a reconting themcometers installed, the arithmetical average of the 24 hour period will be used to determine the temperature correctly.
  - (e) The specific gravity of the gas shall be determined by a recording gravitometer of standard manufacture installed in a sultable location. Where a recording gravitometer is not used, the specific gravity of the gas-shall be assumed to be the same as that of Seller's supplier(s).

    (f) The total heating value of the gas delivered hereunder may be determined by Seller by Using:a-standard type of recording calotimeter, spectrometer, chromatograph, or other
  - (f) The total heating value of the gas delivered hereunder may be determined by Seller by Using:a standard type of recording calotimeter, spectrometer, chromatograph, or other approved instrument which shall be so located, at a suitable point on Seller's line, in order that the BTU content of gas delivered hereunder may be properly obtained; Where required, daily reading from the record so obtained shall be corrected to the basis of measurement provided and from a saturated basis to the average, moisture-content of the gas delivered, the result being the BTU content of the gas delivered during the billing period. In the event that Seller does not instell a recording instrument for such determination or-its instrument is not operating property, the total heating value shall be determined from a recording calorimeter or comparable instrument property installed and operated by Seller's supplier of natural gas, provided, such values are applicable to the gas that may be itelivered to the Buyer.

# Article VII MEASURING EQUIPMENT

- Sellerwill maintain and operate, at its own, expense and at the point of delivered hereunder stiall be measured. Such meters and equipment shall remain the property of the Seller.
- 2. Buyeragrees to turnish to Seller electricity/dor operating Seller's meters, at not cost to Seller.
- 3) Buyer hereby grants to Sellersutitable rights of way and easements necessary or fincidental for the installation, maintenance, operation and removal of pipeline and officers together with rights of ingress therefore and egress there from at all times and hereby agrees to deliver to Seller, for the sum of one dollar (\$3100); an appropriate instrument or grant delimits such rights and easements located on Buyer's plant site,
- 4. Buyer may install, maintain and operate such deeck measuring equipment, including a recording gravitomater as it shall desire; provided that such equipment shall be so installed so as not to intellers with the operation of Seller's measuring equipment at or near the point of defiver. However, all belings to the Buyer shall be based on the metering of the Seller, subject only to the provisions of Paragraph 8 of this Article:
- 5. Each party shall have the right to be present at the time of any installing, reading, cleaning, changings repaining; inspecting, testing, calibrating; or adjusting done in connection with the other's measuring equipment used in measuring deliveries hereand each party shall advise the other of any intended major matrixenance operation sufficiently in advance in order that the other party may conveniently have its representative present.
- 6. All installation of measuring equipment, applying 10 or effective deliveries hereunder, shall be made in such manner as 10 permit an accuracy of measurement, Orifice meterificistallations, if used, shall conform to the recommendation for design and installation contained in the Gas Measurement Committee Report No. 3 to the American Gas Association published April, 1955, and any modifications and amendments thereof and shall include the use of flange connections.
- 7. Measurement on Seller's meter or meters shall be condusive of both parties except where the meter is defective or fails to register, or if found in error, in either of which case Seller shall repair or replicate the meter and the quantity of gas defivered while the meter was out of order or failed to register shall be estimated: (a) By using the registration of any check meter of installed and accurately registering, or, in the absence of (a): (b) By correcting the error if the percentage of error by calibration, test or mathematical establishion, or, in the absence of both (a) and (b) then; (c) By estimating the quantity of delivery from deliverities during periods undersimilar conditions when the meter was registering accurately; and an appropriate billing adjustment shall be made in accordance with the current Rules and Regulations governing gas systems issued by the Commission.
- 8. Seller will maintain its meters in good order and to this end will make periodic tests of its meters published to the current Rules and Regulations governing gas systems issued by the Commission, or at such storterintervals as seem to Selberdesirable. If Buyer is dissatisfied with the accuracy at any time, it may tail upon Seller to have the metertested in accordance with all regulations relating to such tests and results of such tests as found in the current Rules and Regulations governing gas systems issued by the Commission.
- 9. Each party shall preserve all records for a period of atleast two (2) years.

# Article VIII BUYER'S FACILITIES

- 1. Buyer will maintain at its own expense facilities from the delivery point to the point of use and the burners and equipment for using gas, and Buyer will at all times keep gas-using equipment on said premises in a condition conforming with such reasonable rules and degutations as may be prescribed therefore by regulatory authority having jurisdiction thereover and with the requirements of any valid law thereto appertaining. In the event that rules are not prescribed by a regulatory authority. Buyer-will abide by codes as used in the gas industry.
- 2. Seller shall not approve sale of gas on an interruptible basis to Buyer until and unless Setterns satisfied that Buyer has, or will, install adequate stand-by facilities to meet its full fuel requirements during periods of sustained interruptions.
- 3. Seller shall not approvessates of gas to Buyer unless Seller is satisfied that Buyer has not, or will not interconnect downstream fuel piping of natural gas for use in different priority-of-service categories.

# Article IX RATEAD JUSTIMENTS

- 1. Taxes applicable to the gas defined to Buyer hereunder as are in effect on January 154 immediately preceding the effective date of these terms and conditions shall be added to Buyer's bill. The term "tax as used herein shall mean any @x., license fee, or charge applicable to the gas delivered hereunder, imposed on Selfer by any governmental authority on such tags. If the existing rate of any such tax in effect on January 154, imitigatiately preceding the effective date of these terms and conditions, be hereafter increased or decreased, or if any tax herefore in effect or hereafter be imposed or repeated, the estating increase pr decrease in such taxes, computed on a cents per delivativem basis, shall be reflected, as the case may be; on Buyer's bill.
- 2: Any applicable surcharge or special charges ordered by the Commission or any other duly constituted regulatory body shall be included in addition to the price of gas computed in accordance with the terms of the Service Agreement.

# Article X BILLING

- Bills computed from readings taken of Seller's meters shalf be rendered and Paid monthly with left (10) days of this billing date. A month shall mean a period beginning on the first recognized Work day of the calendar month and ending on that first recognized work day of the next succeeding calendar month, or at such other equivalent period as Sellerimay differencessary. Should Buyer fail to pay any amount due to Setter when sairje is due, a late payment charge offene and one half percent (1 1/2 %) Will be added to any batance. remailting twenty-five (25) days after the billing date. If such failure to pay continues, Seller may suspend deliveries of gas hereunder. The exercise of such rightishall lie til addition to any and all other remedies available to Seller.

  If it is that be found that Buyer has been overcharged or under the provision hereunder, Seller shall take action to context such billing pursuant
- to current Rules and Regulations governing gas systems issued by the Public Service Commission of South Carolina.

#### Article.XI

# POSSESSION OF GAS AN INDEMNIFICATION

- As between the parties hereto, Setter shall be deemed to be in control and possession of the gas distretable flethibitation will it \$180 have been delivered to Buyamat the Point of Delivery afterwhich Billyershiall be deemed to be in control and possession thredulf.
- Buyer shall indemnify and hold harmless the Setterfrom any and all loss (including death), damage, or liability incomed by the Setter by reason of any act of the Buyer, its agents or employees, in the race Mrig, use or application of said gas on the Buyer's side of the Point of Bellivery unless the same shall be due to the sole negligence of the Seller, its agents or employees. The Setter shall indemnify and hold tramiless the Buyer from any and all loss (including deality), dainage on liability lincomed by the Buyer by reason of any act of the Seller, its agents of employees, unless the 6ame shall be due to the sole negligerilad of the Buyer, its agents or employees.

# Article XII WARRANITY/OFTITLE TOGAS

Seller warrants the lide to all gas delivered/mensunder and the light to sell the same and that \$ucti g#55that! be free and clear from all tiens and adverse daims:

# Article XIII FORCEMANIEURE

- In the event of either party hereto being rendered unable wholly or in part by Jiblite majetife to carry Dill Us obligations under this contract; other Itlan hormake payments due hereunder, it is agreed that on such party giving notice and full particularis of such force majeure in willing or by telegraph to the Other party as south as possible after the Occurrence of the cause relied on, then the obligations of the party giving such notice, so far as they are affected by such torce majeure, shall be suspended during the continuous of any firminity so caused but for no longergiethod and SUDI cause shall as for as possible be remedied with all reasonable dispatch. The term florce thair under the continuous shall mean acts of God, strikes, lockotuls, of other industrial distill this mass, acts of public enemy, wars, blockades, insurrections, riots, epidemics, landslides, lightning, earthquakes, fires, starms; floods, washouts, arrests; and restraints of government and people, eight sturbances, explosions; breakage or auditionts to machinery or lines or pipe, treezing of wells orllines or pipe, partial or entire failure of source of supply, and any other causes what the kind herein enumerated or elbanvise, not within the control of the party chairning suspension and whith by the exercise of dir diligence such party is unable to prefetitor averagme; such terms, shall likewise (fortunity(a) in those instances where either party hereto is Riquilied to obtain sensitudes, rights of way grants, permits; out libeases, and (b) in those instances where either party. hereto is libquired to filmish materials and sumplies to secure grants or pemiliasio (toltrim any governmental algency to enable such party to Kulfillills obligations hereunder, the inability of such party to acquire at reasonable cost and after the exercise of reasonable diligence such materials and supplies, permits and permissions.
- It is understood and agitted that the settlement of strikes or lockouts shall be enlirely within the discretion of the party involved and that the above requirement that any force majeure shall be remadled will all reasonable dispatch shall not require the settlement of shikes or footlooks according to the demands of opposing party when such course is inadvisable in the discretion of such party.

# Article XIV MISCELLANEOUS

- If elithérquarty shafilfail to pelform any of the covenants or obligations imposed lipon it under and by virtue of the Selvice Agreethent of which these General Terms and Conditions are a part, (except Wilhere shidth faillire shall be excQsed under any of the Provisions of this Schnice Agreement); then in such event, the other party may, at its apriliant, terminate this Senice Agreement by proceeding as follows: The party not in default shall cause a Written notice to be served on the party in default, stating specifically the cause for terminating this Selvice Agreement and declaring it to betthe difficult of the party gifting the notice to terminate the same; thereupon, the party in default shall have thirty (30) days after the service of the aforesaid notice in Which to remedy and remove said cause or causes and fully indefining the party not in default for any and all consequences of thirth breach, then such notice shall be Wilhdrawn and this Service Agreement shall continue in full force and effect. In case the party lift default those not \$6 remedy and remove the notice for any and all consequences of such bitelach. Within said period of thirty (30) days, then this Service Agreement shall backline mill and void from and after the extinization of said period. Any cancellation of this Service Agreement pursuant to the provisions of this Article shall be without predictible to the right of party not in default to exilect any amounts then due Itland without wailver of any officer remedy to which the party notin default may be entailed flamicolation of this Service Aptitionant
- The Service Agreement, of writch these General Terms and Conditions are a part thereof, shall be binding upon and inure to the benefit of the Sellismand the Buyer and their 2, SPOCESSOFS and assigns.
- 3. Exemptes otherwise provided, any notice, request, demand, statement or bill, which either Buyamor Seller may desire to give to the other shall be in Writing and shall be considered as fully delivered When mailed by prepaid registered mail addressed to said party at its liast known post office address, or at such other addresses as either party may designable in writing. Routine communications, including monthly statements and payments, shall be 6xill/sidered as duly delivered when mailed by either registered erarctimary that.
- Buyers coverients and agrees to execute or file, or cooperate. With Seller lift the execution or filing of, any report; certificate or other document required by any governmental atjency having jurisdiction overthis contract or the parties hereto, or any other certificate bir document requested by Seller necessially for Seller to citizen other and the benefit of any exemption from sales, lise or other tax. Buyer shall indermitif/ Seller for any loss sustained by Selfer as a result of Buyer's breath of this covernmt.
- The parties liererto in executing this Service Agreement and these Grenteral Terms and Conditions, advanced by the Service Agreement and these Grenteral Terms and Conditions are a part of the Services. Agreement
